

Dear Senior Leader,

Thank you for your interest in joining the Urban Alliance network as a Unity Partner!

As a collective impact organization, UA mobilizes service and outreach efforts through initiatives focused on basic needs, health, children and youth, and more. Our UA staff team supports these efforts by providing professional services to:

- connect people through network relationships and communications;
- equip churches and organizations with knowledge and skills through research and training;
- organize initiatives, volunteers, and resources for collaborative action;
- consult throughout the process of bringing vision to action.

This packet contains information about UA's collective impact opportunities, benefits of engaging as a Unity Partner or Program Partner, and Urban Alliance's Unity Partner Application. Please let us know if you have any questions.

Finally, if you would like anyone from our UA staff team to visit your church or organization, please let me know. We would be honored to connect with your leadership team, congregation, and other key personnel to discuss more about what it means to be a part of the UA network, specific opportunities for service and support, or ways that we can positively impact the community together.

Better Together is how we serve. As an alliance we are "leveraging strengths to change lives!"

Together in Christ,

Perkin
